

Job Posting

GAS PLANT OPERATOR - WATERTON

Position	Third Class Gas Plant Operator	Suite 1100, 411 1st Street SE
Job Type	Full time, permanent	Calgary, AB T2G 4Y5
Reporting To	Superintendent, Waterton	cavvyenergy.com
Location	Waterton Gas Complex	HR@cavvyenergy.com

Company profile

Cavvy Energy is a Canadian energy company headquartered in Calgary, Alberta. Through several corporate and asset acquisitions the Company has grown into a significant upstream and midstream producer with assets concentrated in the Canadian Foothills, producing conventional natural gas, NGLs, condensate and sulphur.

Management is excited about **Cavvy's** opportunities and prospects within our existing asset base in the Canadian Foothills; during the past year **Cavvy** has strategically refocused on sustaining and growing its upstream exploration and production ("E&P") and midstream business. Our objective is to continue **Cavvy's** pivot toward growing a sustainable and profitable conventional Foothills oil and natural gas business while continuing to explore opportunities to diversify market access for the products we produce.

Position summary

The Waterton Gas Complex is currently looking for a safety-oriented individual to fill an operations role for their high-pressure sour gas plant situated southwest of Pincher Creek, Alberta.

Reporting to the Plant Foreman you will be responsible for the safe and efficient operation of the equipment and processes. You will provide direct guidance and support to operating staff and contractors to consistently meet or exceed expectations in the following areas: production, operating costs, corporate values, environment, health and safety, training, regulatory, and emergency response while in care and control of the facility.

Key responsibilities

- Responsible for the safe operation of a 1st class, 5500 e3m3/d sour gas plant with a deep cut fractionation unit, stabilization unit, sulphur plant, and all associated utilities.
- Responsible for isolation and permitting activities in a large industrial setting.
- Must meet the requirements of WHMIS, ABSA, and ASME codes as required.
- Must maintain a logbook and operate the site's power boilers in compliance with the regulations.
- Must follow and apply the site's safe work procedures.

- Must be able to take and direct calls from the public regarding the site's activities. Our interactions with the community are critical to our business.
- Must be prepared to respond to an emergency and follow the site's emergency response plan.

Education and work experience

- Experience in sour gas processing facilities required.
- Minimum 3rd class power engineering certificate required.
- 5th Class driver's license required.
- Current certification in H2S alive, First Aid, WHIMIS, TDG.
- Demonstrated ability to adapt to process changes and modifications.
- Demonstrated computer literacy and knowledge of automated operations systems.
- Excellent communication skills.
- Proven analytical and problem-solving skills.
- Excellent organizational and project management skills.
- Work well with others in a fast-paced environment.
- Ability to work twelve-hour rotating shifts and cover other operators during their absences.

Cavvy is an equal-opportunity employer committed to diversity and inclusion. We are pleased to consider all qualified applicants for employment without regard to race, colour, religion, sex, national origin, age, disability, protected veterans' status or any other legally protected factors. Accommodation for applicants with disabilities is available upon request during the recruitment process.

To apply please send resume to HR@cavvyenergy.com
