### Company profile

**Cavvy Energy** is a Canadian energy company headquartered in Calgary, Alberta. Through several corporate and asset acquisitions the Company has grown into a significant upstream and midstream producer with assets concentrated in the Canadian Foothills, producing conventional natural gas, NGLs, condensate and sulphur.

Management is excited about **Cavvy's** opportunities and prospects within our existing asset base in the Canadian Foothills; during the past year **Cavvy** has strategically refocused on sustaining and growing its upstream exploration and production ("E&P") and midstream business. Our objective is to continue **Cavvy's** pivot toward growing a sustainable and profitable conventional Foothills oil and natural gas business while continuing to explore opportunities to diversify market access for the products we produce.

### Position summary

The Jumping Pound Gas Complex is currently looking for a safety-oriented individual to fill a Pipefitting role for their high-pressure sour gas plant and field, situated West of Calgary, Alberta.

Reporting to the Maintenance foreman you will be responsible for the safe and efficient maintenance of the equipment in the plant and field. You will provide direct guidance and support to operating staff and contractors to consistently meet or exceed expectations in the following areas: production, Maintenance, operating costs, corporate values, environment, health and safety, training, and regulatory requirements while executing your craft.

### Key responsibilities

- Execute corrective maintenance, preventative maintenance, capital projects, equipment and piping scope including estimating.
- Identify steps on the work order based on specifications/procedures and planning practices.
- Build detailed isometric drawing with applicable piping spec based on media and company standards.

- Participate in executing QAQC practices such as hydrotests.
- Execute work while under supplied air in a hazardous environment.
- Trouble shoot piping system and equipment that are tied to process.

### Education and work experience

- Minimum Ten years of industry experience with a certified Journeyman pipefitting ticket.
- Experience with repair methods, specific to sour gas piping and equipment.
- Ability to read/interpret piping and instrumentation diagrams, process flow diagrams, piping ISO's and familiarity with welding procedures/codes.
- Excellent communication and people skills with the ability to work professionally with other team members at various levels.
- Demonstrated analytical skills with the ability to work with complex schedules and optimize for best cost/benefit ratios.
- Experience with tubing installation would be considered an asset.
- 5th Class driver's license required, driver's abstract required.
- Current certification in H2S alive, First Aid, WHIMIS, TDG.
- Proven analytical and problem-solving skills.
- Work well with others in a fast-paced environment.
- Ability to work overtime and weekends when required.

Cavvy is an equal-opportunity employer committed to diversity and inclusion. We are pleased to consider all qualified applicants for employment without regard to race, colour, religion, sex, national origin, age, disability, protected veterans' status or any other legally protected factors. Accommodation for applicants with disabilities is available upon request during the recruitment process.
